Orders

Depending on access rights, you can change some fields to complete the registration or simply delete a bad entry. You also can set a registration for someone else.

Mail

You can send an email to one or more selected participants in order to communicate with your community and add generated attachments.

Security

Each participant can modify some informations after validation. You can reset his personalized link with a password if he forget it. Limited registration and opening period are available.

State

To better track your entries you can assign a state : pending, valid and invalid by default. You can replace them or add more.

Views

Save views with hidden / sorted columns and filter on keywords. This view can be use for export. Some financial informations are also available.

Export

Select entries and only the view (columns and filter) will be export. Like a summary and the complete folder. Many other document can be generated.
